Exterior and interior use for masonry walls and wood surfaces of all kinds of buildings and structures.

Technical Properties

Colour : Clear

Finish : Low Sheen

Application Information

Substrate : Concrete, Masonry, Plaster, Softboards, Wood

Recommended No. of Coats: 1 to 2

Application Methods

Applied By : Brush / Roller / Spray

Thinner : Water

Clean Up : Water

Packaging & Storage

Packaging : 5L

Shelf Life : 12 months - Unopened

Storage : Cool, dry and well-ventilated area away from heat and direct sun light. Lid must be kept tightly closed.

Surface Preparation

Clean surfaces by high-pressure water-jetting where possible and scrubbing to remove any infestations.

If necessary, apply undiluted wash over remaining stubborn infestation, and clean again with high-pressure water jetting or scrubbing after 1 hour. Repeat this process if required until infestation is thoroughly removed.

Surfaces must be dry, clean, sound and free from any loose material, dirt, grease or wax.

Application & Cleaning Instructions

No dilution is required. The wash is ready for use after thorough stirring.

Clean up equipment immediately after use.

Health & Safety

Ensure good ventilation during application and drying. Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of soap and water. During spray application, do not breathe in mist and wear suitable respiratory protective equipment. Keep out of reach of children.

Complementary Products

It is recommended to use the Graphenstone and Ecomaxx products for complementary actions, according to the required application, repair and/or finish. Please, refer to the relevant Technical Data Sheets.

TECHNICAL DATA SHEET

Usage Warnings

None in particular for normal use and people who do not have special pathologies. Alkaline product: protect skin and eyes especially. Apply with good ventilation, do not inhale product. Keep out of reach of children.

Waste Management

Help protect the environment, do not throw waste through the drain and use the nearest recycling centre.

Responsible Gesture

Minimize the product waste by estimating the amount you will need. Recover the unused paint to give it a new use, keep it under the above stated storage conditions.

Safety Information

For information regarding safety, physical, ecological and toxicological information see the latest version of the product's Material Safety Data Sheet.

Disclaimer

The above information is given to the best of our knowledge based on laboratory testing and practical experiences. The information in this data sheet may be subject to changes from time to time and without notice due to production refinements arising from continuing research and evaluation programmes, which may occasionally result in marginal changes in the coating properties.
